

Hazeldean Road, Abbotsford Road & Morrena Road Regrading

NOTICE OF PROJECT

Contract No. ISB12-3032

The City of Ottawa, in partnership with McIntosh Perry, is completing the Preliminary and Detail Design of the West end Flood Mitigation Phase 2 on the following streets:

- 462 Hazeldean Road rear laneway
- Abbotsford Road regrading at Morrena Road
- Morrena Road side yard drainage between house no. 173 and 177

The work consists of road regrading and improvement to overland drainage on private properties.

To complete the required engineering efforts associated with this project, McIntosh Perry retained the services of Houle Chevrier Engineering Ltd. to perform on-site geotechnical investigations. The geotechnical investigations are required to assess the subsurface conditions.

Representatives of the City of Ottawa Real Estate Services group will contact you to secure the necessary 'Consent to Enter' forms from property owners and/or businesses, as access to roofs and the areas surrounding each dwelling/building will be required.

You are encouraged to contact the City of Ottawa if you have questions or concerns about the project. The City of Ottawa proposes to proceed to construction in the spring of 2013 with completion anticipated by the end of June 2013.
